**4.1 CULTURAL IMPACT ASSESSMENT REPORT**

**Author:** Sue Mavor, Senior Policy Advisor

**Authorised by:** John Ridd, Group Manager: Business and Technology

**PURPOSE**

Maria Nepia from Tihia Limited has provided her final cultural impact assessment report. The recommendations of this report need to be reflected in the draft Reserve Management Plan.

**DISCUSSION**

Tihia Ltd (Maria Nepia) was commissioned in March 2017 to prepare a cultural impact assessment for the land included in the Turangi Reserves Management Plan. This report documents the Māori cultural values, interests and associations with the reserve land and includes recommendations on how to avoid, remedy or mitigate, adverse effects of reserve use on these values, interests and associations.

Maria presented the draft findings and recommendations of the report at the June 2017 Committee meeting. Her final report has been received. Maria will present her findings and recommendations at the Committee meeting. The Committee needs to ensure that the recommendations from the cultural impact assessment report are reflected in the draft Reserve Management Plan.

**CONCLUSION**

Tihia Ltd (Maria Nepia) was commissioned to prepare a cultural impact assessment for the land included in the Turangi Reserves Management Plan. The final cultural impact assessment report is attached to this agenda report.

**RECOMMENDATION(S)**

That the Turangi Reserves Management Plan Committee directs staff to reflect the following recommendations from the Cultural Impact Assessment report in the Draft Reserve Management Plan:

Tūrangitukua Sports Park, Te Kapua Park (and reserves) Te Koko, Taupehi, Fire Break, Waipapa, Te Rangikahekeiwaho

1. A permanent Co-Governance Joint Committee is established that is made up of Tūrangitukua and Councillor representation that has delegated authority to deal with all matters relating to all the reserve land in Turangi (regardless of ownership).
2. Tūrangitukua Township Settlement reading should form part of an induction package to new Council staff and Councillors.
3. Annual seminar sessions on the Tūrangitukua Township Settlement to form part of the Councils annual staff and council training to ensure knowledge and understanding within TDC remain high.
4. The Co-Governance Committee consider 'information plaques' on reserve names to reinforce the importance of their names alongside a broader communication plan with the wider Turangi community on the 'story' of the reserves and their ownership status.
5. Specific provision is made for those whanau who were the original owners of the land to access, reform and re-establish their own relationship with the land.
6. The NTCT reserve policy (Appendix 2) should also form part of the Reserve Management Plan development.

Kohineheke Reserve

7. The resolution of the Kohineheke Reserve is a priority for those whanau.

Hangarito Stream Reserve

8. A permanent Co-Governance Joint Committee is established that is made up of Turangitukua and Councillor representation that has delegated authority to deal with all matters relating to all the reserve land in Turangi (regardless of ownership).

9. That the Hangarito Stream Reserve is a strictly limited access area which should be clearly articulated in the Reserves Management Plan.
10. The Co Governance Reserve Committee to develop a protocol for Council staff to allow access for maintenance and emergency access specifically relating to the Council infrastructure. This process will need to be articulated clearly so that the staff and the land are kept safe.
11. Consider erecting signage noting that it is a no access area alongside restorative planting.
12. Ngāti Tūrangitukua to consider working with TDC to correctly name the land (Part Turangi Park Reserve, A Reserve, B Reserve, C Reserve, D Reserve, E Reserve).
13. The Joint Committee (see recommendation 1) to consider the best way to engage with those Turangi residents who back onto the reserves that make up the Hangarito stream so that they are aware and that there is a collaborate process for looking after the Hangarito Stream.
14. Specific provision is made for those whanau who were the original owners of the land to access, reform and re-establish their own relationship with the land.

#### Turangi Water Supply Site

15. A permanent Co-Governance Joint Committee is established that is made up of Tūrangitukua and Councillor representation that has delegated authority to deal with all matters relating to all the reserve land in Turangi (regardless of ownership).
16. That the Turangi Water Supply site is a strictly restricted access area which should be clearly articulated into the Reserves Management Plan.
17. Co Governance Reserve Committee to develop a protocol for Council staff to allow access to the water supply reserve for maintenance and emergency access specifically relating to the Council infrastructure.
18. Co Governance Reserve Committee to consider what type of communication could be used to keep both the general public and the land safe with respect to the water supply reserve.
19. Consider erecting signage noting that it is a no access area alongside restorative planting across the whole reserve.
20. Ngāti Tūrangitukua to consider working with TDC to correctly name the Turangi Water Supply site.
21. Specific provision is made for whanau who were the original owners of the land to access, reform and re-establish their own relationship with the land.
