#### 4 REPORTS

#### 4.1 TAUPO AIRPORT AUTHORITY FINANCIAL REPORTS - DECEMBER 2021

The Finance Business Partner shared her screen and updated the committee on the Financial reports to December 2021 (A3082576)

The following key points were noted:

- All non financial performance objectives had been achieved, except the cashflow target.
- Aircraft movements have increased from December 2020, but overall there had been a decrease in

## 14 February 2022

scheduled airlines due to Covid-19 restrictions.

- Increase in private operations and helicopters, and decrease in parachuting.
- Surplus and deficit, we have a loss of \$181k for six months to December 2021, which is \$22k lower than last year, and \$12k lower than the Statement of intent.
- Net assets are \$17.6m
- Statement of cashflows, we have got an operating cashflow from operating activities at -\$78,000
- Sold the ute in november for \$12k which gives us -\$66k
- We are owed \$58k of GST relating to the project, which gives us true operating cash movement of negative \$8k from June to December 2021.
- Total spend on the project is \$1.7m, with an equity injection of \$3.0m
- Total Revenue is \$206k which is slightly higher than December last year, and about \$26k less than the Statement of Intent.
- Landing and terminal fees are \$30k lower due to Covid-19.
- Lease revenue is \$25k higher than last December, with having an element of CPI and valuation increases, it will offset our negative in landing and terminal passenger fees.
- Total expenses, including depreciation is \$387k which is \$12k more than the Statement of Intent, \$8k is due to leave taken during the year. This is higher than the total cost the prior year, due to grass runway maintenance which was \$10k last year, and the aeronautical study completed last year which was \$35k. Accident investigation costs were \$8.7k in professional services.
- Software Licences include Metservice weather data, information published to pilots, last year it was equipment hire.
- Equity note, the main part is the capital injection which is a flow on effect from the Central Government funding for the project which was \$250k from TDC and 2.7m from the Crown.
- Cash and Equivalents is \$5.65m (incorrect on agenda pg6). Most of this relates to the project fund, which leaves an operating cash balance of \$116k, \$53k of this relates to the GST that needs to be transferred back to the project fund.
- True operating cash balance is \$70k, so still in credit.
- Trade and trade receivables, the historic number has dropped due to the debt collection efforts earlier in the year. The majority of the other receivables is GST.
- Trade and other payables is \$549k is mostly project related costs. \$406k is related to project expenses for December. \$50k owing to TDC.
- Employee benefit liabilitiess have not changed much.
- There was a plan in place to deal with annual- and sick leave accruals.

# TAA202202/03 RESOLUTION

Moved: Mr Chris Johnston Seconded: Cr Kathy Guy

That the Taupō Airport Authority Committee receives the financial reports as circulated.

## CARRIED

# 4.2 TAUPŌ AIRPORT AUTHORITY PROJECT FINANCIAL UPDATE - DECEMBER 2021

The Finance Business Partner advised that \$2.9m had been spent to date, and we are 60% through our contingency.

# TAA202202/04 RESOLUTION

Moved: Mr Chris Johnston Seconded: Cr Christine Rankin

That the Taupō Airport Authority Committee receives the financial reports as circulated.

CARRIED

14 February 2022

#### 4.3 CASHFLOW FORECAST UPDATE

The Finance Business Partner shared a graph of the updated short-term outlook.

- They key part of this is that we are still ending up in the same place, and once we receive the \$50k overdraft, this will cover the short fall. The Ministry of Transport had verbally agreed to the overdraft, we will receive that confirmation in writing.
- Auditors have not audited yet, they are looking at April/May which pushes some expenses out and also the cropping income we had in the forecast is a lot less which is offset with less expenses, extra cost in the Statement of Intent, and double up in tax expenses.

The General Manager Taupō Airport advised that with the current red traffic light settings, AIRNZ and Sounds Air have said that flight schedules will reduce, although not as bad as Level 3 & 4 Lockdowns. We are only losing two flights per week with AIRNZ, although this does not guarantee passenger numbers, so we may see a further dip in flights.

Sounds Air are also dropping flights during the week, whilst still maintaining a schedule, they will no longer have the overnight which allows for early morning flights to Wellington which may further decrease passenger numbers. We will work with Sounds Air about going forward in the future.

#### TAA202202/05 RESOLUTION

Moved: Cr Christine Rankin Seconded: Mr Chris Johnston

That the Taupō Airport Authority Committee receives the information.

CARRIED

#### 4.4 GENERAL MANAGER'S REPORT

The General Manager Taupō Airport shared his screen to show a graph. He noted that:

- TAA Landing fees were last reviewed in 2014. TAA has collaborated with other airports around New Zealand and Australia in a review of landing fees in light of facilitation costs.
- Taupō sits second to the bottom for landing fees ahead of Hokitika at \$2.83 per passenger.
- We are quite far behind in terms of operating costs based on our Q300 aircraft service. With the new terminal this will jump up to the \$6 mark, whilst other airports will also jump up.
- Operating costs, we are due for a complete review.
- Same exercise was done on general aviation across the airports involved, C172 was set as the benchmark, Taupō is at the bottom, Timaru is \$2 more than us.
- We would like to work with AIRNZ to do an in-depth review and put a timescale on it.
- Ideas and outcomes would be brought to the next meeting.
- A member asked if this poses any risks to us if the review goes ahead and we make a decision to lift our landing fees which obviously needs to be done, looking at our current financial position.
- Airport Manager advised that if the process is performed properly and we have clear reasonings. For both general aviation and passenger fees, TAA is substantially lower than other airports. We have adopted a user pays model, rather than asking rate payers to subsidise. The review has not been done since 2014, ideally this should be done every five years. The TAA decided on a 5 yearly data collection to review this. Members agreed this should be reviewed every 5 years.
- TAA has had interest in the Rotocraft area to Northwest of the new terminal (Zone D). Three parties are ready to proceed with the the build of the helicopter facilities in the area. Sites in this area have been plotted out, the next stage will be collaboration with interested parties on future build plans.
- The transition from the current terminal to the new terminal is now in process of discussing timeframes between practical completion of the facilities, to opening to passengers and commercial operators. The General Manager to provide further progress updates in future meetings.
- In answer to a question, the General Manager Taupō Airport advised that the project communication is going well, via TDC's steering group.

14 February 2022

- The CAA (Civil Aviation Authority) will be auditing the TAA on the 139 Certification and Part 100 Safety Management Plan in 2023.
- Suggestion to include a report in future agendas regarding safety managerment and risk updates.
- The General Manager Taupō Airport and the Airport Operations Manager were working with the luceme contractor to clarify some aspects of the contract.

#### TAA202202/06 RESOLUTION

Moved: Cr Christine Rankin Seconded: Mr Chris Johnston

That the Taupō Airport Authority Committee receives the General Manager's report.

CARRIED

#### 4.5 DRAFT TAUPO AIRPORT AUTHORITY STATEMENT OF INTENT 2023 - 2025

The Finance Business Partner and General Manager Taupō Airport provided updates on the 2023 – 2025 Statement of Intent.

The General Manager Operations and Delivery and the General Manager Taupō Airport were investigating potential different governance structures for the TAA. This would be an item on a future meeting agenda.

The Finance Business Partner shared a graph to visually display the income actuals of 2021 versus 2023 SOI.

The following key points were noted:

- Potential revenue expansion opportunities were discussed, including the installation of underwing fueling. There is a cost for that development but it would mean that passenger and landing fees would increase.
- Performance targets remain the same.
- Some changes with the upcoming new terminal. A projected \$212k deficit for the 2023 year. There is depreciation of \$355k so cashflow will still be positive in \$143k. For the 2024 year, a deficit of \$184k with positive cashflow of \$258k. For the 2025 year, a projected \$82k deficit with positive cashflow of \$355k.
- With the \$442k revenue in 2021, to get to the 2023 SOI \$677k, the major differences were broken down.
- Landing Fees will be reviewed, 5% increase has been accounted for once the new terminal is complete. This has been populated prior to getting study results, meaning the increase is likely to be around 15%.
- The Local Authority Compensation was explained that it is to cover the shortfall in the terminal of the apron cost of \$776k The apron enabling works that are happening currently is about 30k that is required while during the terminal works to avoid that coming out of the contingency. We are requesting a total of \$800k in funding from TDC.

It was suggested that the Statement of Intent should include a strategic focus which aligns with the Council's vision.

#### TAA202202/07 RESOLUTION

Moved: Cr Christine Rankin Seconded: Cr Kathy Guy

That the Taupō Airport Authority Committee adopts the Draft Taupō Airport Authority Statement of Intent 2023 - 2025
